mini project one
Build a Simple Webpage using HTML and CSS

Project Guidelines:

Content
- o Use this site to give me a quick introduction to you.
- o "Communicate" to me about your interests, hobbies, etc.
- o Make it fun!

HTML
- o Use at least **~15 tags** in total (**8 different** ones.)
- o Use proper indentation and formatting for HTML

CSS
- o Use an external stylesheet
- o Change at least **~2 properties** of **~3 different selectors** (classes, IDs, or elements)

Sample Output Website

This is not what your website MUST look like but just one example of what it could look like.

Who am I?

Hi! My name is Ata Gowani and I am a human, but I am not just any human.

What makes me different?

Well I am **me**!

What does it mean to be me?

- me likes to sing (please don't ask me to sing on spot, me does not like that)
- me loves to write code and build cool things
- me also really likes to run
